

PERCY CALLED ON THE BOSS AND LEFT HIS CARD

MACK WILL BEGIN TO TUNE UP TEAM

Philadelphia, Sept. 22.—Now that the Philadelphia club has won the pennant of the American league, preparations will at once be begun by Manager Mack to tune up his team for the world's series next month. The first move towards this end will be the easing up on the Athletics' players, all of whom will be given holidays from time to time until the final series with the New Yorkers here on October 2, 3 and 4. Several of the players are suffering from bruises or other injuries and they will be given plenty of opportunity to get over their ills before starting the hard conditioning for the blue ribbon event.

Manager Mack said tonight that he would at once start to put in substitutes. "I will give some of the veterans a holiday tomorrow," he said. "Each day I will fill the places of some of them with young players, until all of the men have had some holidays. By the time we reach Washington for a series which will start next Monday, I may have in an entire team of substitutes. This will depend upon whether I think the regulars will be benefited or otherwise by a layoff at that time. I intend to travel to Boston and Washington with the team. The hard work of preparing for the world's series will be done in this city in the final series with New York."

Players Need Rest.
"Some of the players are in need of a rest and they now will have an

opportunity to take one. All of those suffering with bruises or wrenched muscles should be in good condition by next week, except Danny Murphy, whose injured shoulder has not yielded to treatment as expected.

For weeks hundreds of applicants have been received by Business Manager John Shibe of the club for tickets for the world's series. All of these, however, have been returned to the senders. Now that the pennant has been won, another flood of applications is expected, but all will be turned back until the national commission meets and announces the arrangements for the big games.

BASEBALL

Cleveland Wins in Second.
New York, Sept. 22.—Though New York out-hit Cleveland more than two to one today, the visitors took the second game of the series by 5 to 4. What the Clevelanders lacked in hits they made up in passes, nine men walking to first. Three of the passes were converted into runs. New York had many chances to win the game, but after getting runners on the bases could not get them around. Falkenberg was batted for ten hits and was taken out with none out in the fifth and two runs in. Steen relieved him and after walking Zeider, filling the bases, he easily retired the next three men. Steen was again hard pressed in the ninth, when two passes and two hits failed to net New York a run. Carisch saved the day for Cleveland when, with none out and two on the bases, he caught Holden napping off second. A pass, a long fly, and a single followed Holden's nap. Fisher's wildness enabled the visitors to score four runs on him before Schultz pitched good ball, but the visitors found him for their winning run in the fifth when Falkenberg scored Graney on the squeeze play. Graney had reached third on a pass, and Carisch's single.

CUBS DIVIDE HONORS
Chicago, Sept. 22.—Chicago and Philadelphia wound up their season's series today by dividing a double-header. Alexander, who was routed by the locals in the first game on Sunday, was good enough to shut them out in the opener today, timely batting off Humphries giving Philadelphia a 2 to 0 victory. Good control by Pierce and hard batting gave Chicago the second game, 5 to 1. Chalmers proving ineffective. The result of the games leaves the locals still three games behind Philadelphia in the struggle for second place. Singles by Doolan and Knabe, combined with two outs, gave Philadelphia a run in the third inning of the first game. Lobert's three-bagger and Magee's single netted the second. In the second game Magee drove a liner into the stand in left field and

reached third before the ball, which had bounded out, had been fielded in. The visitors argued that the hit should be counted as a home run, and Empire Emmie finally allowed their claim. The Philadelphia lead was short-lived, however, and a strong rally in the fifth, sixth and seventh rounds gave the locals five runs.

SENATORS DROP TO SECOND
Washington, Sept. 22.—Washington played miserably in the field today and St. Louis had little difficulty in winning, 7 to 5. The defeat coming when Cleveland was winning from New York ousted the locals from second place, which they had held jointly with the Naps since Saturday. Ayres, a recruit from Richmond, Va. started his first major league game today and pitched a fine game while on the mound. He went along for six full innings in great shape, holding St. Louis to three scattered hits, only one of which was clean. In the seventh he allowed his fourth hit and then Washington went to pieces. Before St. Louis had been retired, five runs had crossed the plate, in which only two hits figured. Boehling went in with two on bases and two out. After allowing the first man to face him to single, he struck out the next batter. He was not scored on again.

Washington could do little with either Leverage or Mitchell.

MANY AA PLAYERS GO A STEP HIGHER

Cincinnati, Sept. 22.—The national baseball commission today officially announced the players from class AA and class A leagues who were drafted by major league clubs at the meeting of the commission here last week. The list was not announced at that time, as all major league clubs were given time in which to determine the players they desired. The list follows:

American League.
By New York, from Columbus, O., Cole.
By Chicago, from Baltimore, Roth; Lincoln, Neb., Barbour.
By Detroit, from Buffalo, Mains; Jersey City, Purcell; Montreal, Demmitt; Sacramento, Williams.
By St. Louis, from Portland, Ore., James; Atlanta, Bland; Birmingham, Messenger; Montgomery, Snedecor; Los Angeles, Howard.
By Washington, from Minneapolis, Owens.
By Cleveland, from Chattanooga, Giddo; from Sioux City, Wood.
National League.
By Cincinnati, from Louisville, Niehoff.
By Boston, from St. Joseph, Mo., Crutcher; Milwaukee, Gilbert; Providence, Deal; Rochester, Martin; Mobile, Stock.
By Brooklyn, from Newark, Gagner; St. Paul, Riggett; New Orleans, Kraft; Toronto, Herbert.
By Chicago, from San Francisco, Johnson; Toledo, Bronkie.
By St. Louis, from Denver, Hagerman.
By Philadelphia, from Nashville, Beck.
By New York, from Omaha, Johnson.
The St. Louis American league club canceled its draft on the Venice, Cal. club, and the Brooklyn club will

SMOOT LAND BILL MUCH DISCUSSED

Salt Lake, Sept. 22.—After three and one-half hours of oratory, of which only a very small proportion was devoted to a consideration of the real object of the meeting, the committee on mines and mining of the Salt Lake Commercial club met Monday evening with Senator Reed Smoot and many others for the purpose of pointing out to the senator the objections the metal miners of Utah had to the Smoot bill, now pending before the United States senate. The avowed purpose of this bill is to perfect title of states to school lands within their boundaries, and in regard to which under existing conditions, there are or may be objections preventing a valid transfer by such states.

Chairman Duncan MacVichie presided, and in addition to the members of the committee, Governor Spry, Attorney General Barnes, Chairman of the state land board and a number of other state representatives, mining men and representatives of the United States land office were in attendance.

Objections Presented.
Attorney E. W. Senior, for the mining committee, presented the objections to the bill, which the committee had found, and he made a vigorous attack upon the state land board for its persistent interference with the patenting of mineral lands within state school land grants. Mr. Senior asserted that the state land board claims title to 536 sections of school lands in organized mining districts, and fifty-seven sections in unorganized mining districts, a total of 379,520 acres, to which the state is not entitled because of this land being mineral.

Mr. Senior pointed out that the largest price received for land, by the land board, is located within a recognized mineral district is \$2.50 per acre, whereas under the law permitting the state to select lieu lands, that is lands taken in lieu of mineral lands forfeited by the state because of their mineral-bearing character, the state could secure a much better figure per acre, therefore, and thereby secure a larger and more satisfactory fund for the schools.

Thinks State Is Robbed.
It had developed early in the discussion that Attorney Senior and Senator Smoot both believed that the state of Utah had no title whatever to any mineral lands for school purposes, but that Attorney General Barnes and the members of the state land board did assert to such title on behalf of the state. Senator Smoot called upon Mr. Barnes to reply to charges that were made against his office and the state land board by Mr. Senior, and the attorney general said it was his conviction that Utah is being robbed of valuable land by the government which the government had already granted to the state.

The state land board believed, he stated, that the government by solemn compact, had given lands to Utah absolutely, but that it frequently happens that land deeded by the state and disposed of by the grantee to several innocent purchasers in succession is taken by the government because of its mineral character. "The attorney general said further that the state land board did not want precious mineral lands for school purposes, but that it did want coal lands, so that Utah could secure the income from leasing coal lands as is being done in Colorado. The chairman of the state land board asserted in this connection that he would welcome the chance to get rid of all the precious mineral lands for lieu lands which could be sold to advantage, but that coal lands were being taken away by the government on technicalities that were unjust in many instances.

Spirited War of Words.
There followed a spirited war of words between Mr. Senior and the attorney general and members of the land board as to the attitude of the board in contesting precious mineral applications for patent for territory within school grants, and the controversy spread merrily until it had involved the local United States land office, inspiring a spirited reply as a matter of personal privilege on the part of Colonel M. M. Kaibara, receiver of the local land office of the government.

FRY DISTRIBUTED
Montpelier, Idaho, Sept. 22.—Deputy Game Warden Harris of Boise has just placed 22,000 Bear lake fry in the Warm river fish hatchery in Bear lake.

EDUCATION FOR OLD AND YOUNG

There are but few people who realize the amount of knowledge one gains by reading the news of the day, not necessarily for the purpose of gaining education, but with a desire to keep up with current events.

In April, 1912, the greatest steamship ever built struck an iceberg some four hundred miles off the coast of Newfoundland and sank a few hours after the collision. The newspapers were filled with detailed accounts of the great disaster, with also minute descriptions of the great ocean liner. People read all that was printed about the awful calamity, and after the excitement abated they found that they had absorbed a great amount of educational information. They had learned of the relative sizes of steamships and the rules governing their course and speed; they became familiar with many of the details of construction; they learned of icebergs and ocean currents; in fact much of the information thus gained would not have been learned by study and was simply absorbed by casual reading.

At the present time everybody is interested in the great Panama Canal. A book has been published on the subject called "Panama and the Canal in Picture and Prose." This volume is not sold at stores, but is being distributed by daily newspapers throughout the country for the benefit of their readers. It contains the complete story of the greatest undertaking known to history, but is told in a "newsy" style that makes it easy to read. Both old and young will find a vast amount of valuable information between its covers and a

thorough education on the subject will be gained by every reader.

The Standard is now offering this beautiful volume on the popular plan explained in the Panama certificate printed daily in these columns. Clip the certificate today and learn how you may get this useful book.

MANY ALIENS ENTER THE UNITED STATES

Washington, Sept. 22.—There were 138,244 immigrant aliens admitted to the United States during the month of July, according to statistics made public by the bureau of immigration today. Of these aliens 94,564 were male and 43,580 female. Non-immigrant aliens admitted during the month numbered 16,358, and American citizens who returned to this country, but refused admission numbered 2708, making the inward passenger movement for the month 180,899.

REBELS BLOW UP TRAIN AT VANEGAS

Mexico City, Sept. 22.—A north-bound train on the Mexican National railway has been dynamited by the rebels near Vanegas, in the northern part of the state of San Luis Potosi. From the meager reports received here it is believed that thirty were killed. The train left here Saturday night, but turned back at Vanegas on account of blown-up bridges further north. The locomotive passed safely over the dynamite charges, but the baggage car and two coaches were destroyed. The passengers killed were in the second-class coach. The tele-

graph lines have been cut both north and south of the scene.

Troops were sent from San Luis Potosi today to round up the rebels. Dispatches from San Luis Potosi, the capital of the state, say that on Saturday rebels estimated to number 1000 sacked the town of Venado and routed a federal force of sixty men at Laguna Seca. The rebels reached Charcas on Sunday well armed with dynamite. The attack on the train this morning is presumed to have been made by the same band.

SECOND RACE FOR CUP.

Chicago, Sept. 23.—The second of three races for the Manhasset cup was scheduled to be called today over a triangular course of 16 miles. There was a puffy southeast wind with a choppy sea and weather conditions were said to be unfavorable to the Stranger, the eastern challenger, owned by R. P. Jenks of the Rhode Island Yacht club. Local yachtsmen predicted that the Chicago, which won the trophy from the eastern yacht in 1912, would lead again today, barring mishap.
